Dear Ross –

Sarah asked me to call you regarding the topic of the light-duty vehicle technical amendment FRM and it's relationship to SAFE.

Do you have time for a call this evening? Would 7pm work? Or later?

I have your number [Ex. 6 Personal Privacy (PP)] if that is what I should call. I will call you from a 248 area code.

Let me know.

Thanks  
Bill

**Subject:** FW: PM uncertainty language clean v2 12866 (002).docx-bb.docx

Karl-

I have not been submitting anything directly to OMB. We have worked through NHTSA for all edits/documents/responses. I can certainly send this to Matthew Oreska as I believe they are expecting it, but wanted to flag that this would be different than other passbacks.

But before I do that I want to flag that I can not open the attachment. That is very likely my incompetence at opening a ZIP file, but would be good for someone else to confirm that they can open it. And I have to admit a slight bit of discomfort with submitting something to OMB that I can not actually read.

Thanks  
Sarah

**Subject:** Fwd: Docketing Requirements for the SAFE FRM - what we will need from NHTSA

Hi Ross-

I'm forwarding the note below from Bill that lays out our plans for docketing materials related to the SAFE rule. Much is FYI but there's an important piece we need from NHTSA. That is:

- All material referenced in the Final Rule preamble and RIA that NHTSA and EPA are relying upon for the formal administrative record
  - This is the action we need material from NHTSA for

Would you please let us know who we can expect this material from, and would you please let whoever is sending the material to please send to each of the following EPA staff:

olechiw.michael@epa.gov

sherwood.todd@epa.gov

bolon.kevin@epa.gov

moran.robin@epa.gov

lieske.christopher@epa.gov

neam.anthony@epa.gov

Thank you.

Begin forwarded message:

**From:** "Charmley, William"  
**Subject:** Docketing Requirements for the SAFE FRM - what we will need from NHTSA

Dear Sarah,

As we are preparing for signature day for the Final SAFE rule, we are getting ready for the docketing obligations for EPA. There are 3 categories of items we need to docket:

- Ex Parte communications with external stakeholders between NPRM and FRM

- This is well underway, and we have what we need to do this – basically memos to the docket regarding meetings with stakeholders between proposal and final that EPA had with stakeholders outside of the Federal Gov't
- Written exchanges with OMB between proposal and final
  - This is also something we have under control. OTAQ staff have been maintaining a folder with all of the written back and forths with OIRA. As with past rules, I believe we will compile all of that into a few files – 1 if we can, but it might be too large, and we will docket those as interactions with OIRA
- All material referenced in the Final Rule preamble and RIA that NHTSA and EPA are relying upon for the formal administrative record
  - This is the action we need material from NHTSA for
  - By the end of day of promulgation, which we understand to be targeted for Tuesday, March 31, EPA needs to submit to the EPA docket for the SAFE rule all of the referenced material in the final rule
  - NHTSA did this for the NPRM for the NHTSA docket, and they emailed (or you we used on on-line file exchange program) all of the items to EPA, so that we could place them in the EPA docket

Can you reach out to Ross, or send him this email, so we can find out who from NHTSA will be sending us the material for the EPA docket? Here are the names we would like NHTSA to email material to:

olechiw.michael@epa.gov  
 sherwood.todd@epa.gov  
 bolon.kevin@epa.gov  
 moran.robin@epa.gov  
 lieske.christopher@epa.gov  
 neam.anthony@epa.gov

Please call or email me if you have any questions on this.

Thanks  
 Bill

Karl-rm

I have not been submitting anything directly to OMB. We have worked through NHTSA for all edits/documents/responses. So it may be that for this particular response it makes sense to go directly to OMB, but before I do that I would want Ross and Jonathan to confirm it makes sense in this case to do that.

**Subject:** RE: Contact Next Week

Hi Tim-

I have a revised response on the question we talked about on Wednesday. How would you like to receive it?

Thanks

Sarah

Hi Ross-

We are fine with the comment responses that you shared last night and amended as discussed today. The one thing that folks wanted to share is that in reviewing the text around footnote 1730 from the preamble, [Ex. 5 Deliberative Process (DP)]  
[Ex. 5 Deliberative Process (DP)] I dont know if that's just a reflection of the draft hasn't yet caught up or if this is where things landed based on further discussions you've had with OMB. But I'll pass along the recommendations that we provided earlier as well:

## Ex. 5 Deliberative Process (DP)

Thanks.

**To:** Ross Rutledge **Ex. 6 Personal Privacy (PP)**  
**Subject:** Follow-ups

Hi Ross- I'm following up on two items from our conversation yesterday.

1. For the tracking number, it is not incomplete -- There appears to be an extra dash "-- at the end that is not supposed to be there. The tracking number is correct without that ending dash, FRL-9981-74-OAR, just as it appears for the NPRM.
2. Of the interagency comments we've seen so far, there were a few that did pertain to EPA's program/parts of the package which we would appreciate seeing the response to:

From Interagency comments dated 1/29/2020 (numbered as appears in the comments)

## Ex. 5 Deliberative Process (DP)

Thanks!  
Sarah

**Subject:** Call today

MacKenzie,

Hope you're well. I think our GC, Al Prescott, just got off the phone with your GC, Jonathan Morrison. We're hoping to put together a call today with Administrator Owens, GC Morrison and the appropriate people from the EPA GC's office. Would it be possible to do 4:30EST today? If so, I'll send a zoom dial in. If not, feel free to suggest a better time.

Very much appreciate it,

Rohan

**Cc:** Moor, Karl <Moor.Karl@epa.gov>  
**Subject:** FW: final edits

Jonathan-

Wanted to see if this is something you could help us with, given chain below. In conversations with OMB these are the last changes we owe them, but I think didn't appear in the last version they received. Happy to chat through any questions you may have on the text, but think it'll appear pretty straightforward given last Friday's call.

Kelley Raymond

**Subject:** final edits

Sarah-

Wanted to mention these edits which we discussed with OMB both this morning and last Friday respectively. One is an edit to the preamble text that we'd like to ensure is made regarding:

**Ex. 5 Deliberative Process (DP)**

## **Ex. 5 Deliberative Process (DP)**

I'd like to know how best to get these back to OMB with our approval to insert in the final. If you would please send to Matthew that would be great, or if it would be best or me to send through Johnathan over at DOT so it can be married to their master copy please let me know. Happy to facilitate however is needed, but understand OMB needs this right away.

Okay, then if you would send a redline version please, that would be helpful. To do it by eye would take significant time, and since we're on a tight timeframe to sign, I'm hoping you would have this saved in redline as well as clean.

**Subject:** RE: DRAFT DELIBERATIVE - PRIVILEGED AND CONFIDENTIAL - ATTORNEY WORK PRODUCT RE: PM uncertainty language\_EPA clean.docx

Jonathan-

Wanted to ask a question of clarification. Is this language just for our review, and is separate than the uncertainty language which OMB had sent (our edited copy attached for example)? Or is this an edited version of the uncertainty language? With so many emails, I just want to be sure I'm reviewing it looking for the correct things. Assume it's the highlighted text we're to review, but if you could give me the context it would be a great help, because by my quick glance [Ex. 5 Deliberative Process (DP)]

[Ex. 5 Deliberative Process (DP)]

Thank you!

### TRANSPORTATION

#### Automakers send coronavirus requests to Congress

Maxine Joselow, E&E News reporter

Published: Tuesday, March 24, 2020

A sedan moves down the assembly line at the Nissan manufacturing plant in Smyrna, Tenn. Maxine Joselow/E&E News

The U.S. auto industry is joining the growing list of industries seeking federal assistance amid the coronavirus crisis.

The industry is asking Congress for relief in the form of loan guarantees, tax deductions for employees' paid leave and deferred corporate tax payments.

Those demands were spelled out in a letter yesterday to House and Senate leaders from the Alliance for Automotive Innovation, National Automobile Dealers Association and Motor & Equipment Manufacturers Association.

In addition to the loan guarantees and tax relief, the groups are seeking to delay the June 1 entry into the United States-Mexico-Canada Agreement.

"The auto industry has put together a high-level industry task force to monitor the situation, share information and address future developments driven by recommendations from public health experts," John Bozzella, president of the Alliance for Automotive Innovation, said in a statement.

"As Congress and the administration continue to develop legislation, we will continue to closely monitor the industry and economy for potential impacts on consumers," he added.

The request comes after major automakers suspended production at their U.S. factories and as analysts forecast that March car sales could plunge as much as 41% compared with last year.

President Trump, who has feuded with the auto industry over clean car standards and other matters, has signaled his willingness to provide assistance during the COVID-19 pandemic.

"We're watching the auto industry very much. We're going to be helping them out, at least a little bit," Trump said on a Friday conference call with the nation's governors.

"They've sort of requested some help," he added. "And it wasn't their fault what happened. So we'll be taking care of the auto industry."

In addition, Trump tweeted Sunday that General Motors Co., Ford Motor Co. and Tesla Inc. had been given the "go-ahead" to make ventilators amid a shortage during the pandemic.

Still, it's unlikely that Congress will act on these requests in the near term. The Senate remains deadlocked over the third stimulus package aimed at helping people and businesses affected by the pandemic (*E&E Daily*, March 24).

In addition, Rep. Debbie Dingell (D-Mich.) has said the auto industry remains wary of asking for more money following the \$63.5 billion bailout of General Motors and Fiat Chrysler Automobiles NV in 2008 and 2009.

"The companies don't want to be perceived as asking for a bailout," Dingell told *The Detroit News* last week.

Dear Jonathan, I am sharing with you a draft version of our briefing materials in our joint rule making effort, which is about to bear fruit. As most of us in the OAR IO were not involved in the initial development of the rule, I invite your thoughts, insights and suggested changes to this document in order further the collaborative efforts of our two agencies. While we may not make all recommended changes, would welcome direct input to save time amidst the dislocation of the national emergency.

Regards, Karl

**Subject: FW: Draft briefing Administrator Wheeler on the SAFE final rule**

Karl, Abbie-

Attached is a draft briefing for the Administrator. Bill took the previously written one pager which you have seen, and added into it some more briefing/summary level info. So I wasn't sure how you would like to proceed with this document given that Karl you mentioned you might make some edits to the previous document. Do you want to take this version and provide some edits and then forward that to Anne and others, or should we try to pare this one back to only new info and leave it as two separate briefing docs (that may be a little trickier than the first option).

Thanks  
 Sarah

Hello Abbie!

Andy Post here with DOT's Public Affairs office. I'm replying on behalf of our office and also on behalf of Sean who is the lead in NHTSA and will also be the lead on SAFE Rollout from NHTSA's side.

We have discussed some ideas internally and with the current situation and also the fact that we expect signing on March 30, we'd propose this concept for EPA/Admin Wheeler to consider:

## Ex. 5 Deliberative Process (DP)

# Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

Thank you!

Andy

Hi Sean-

I hope this finds you well. I spoke with Jonathan Morrison earlier today about the finalization of the SAFE Rule. I am working with EPA/OTAQ staff on communications material. I was hoping to speak with you sometime this week to hear what NHTSA/DOT have been working on. I will be taking point for the OAR immediate office to get communications materials to the EPA Office of Public Affairs.

Do you have time tomorrow or Friday to chat?

Best,  
Abbie

Dear Karl and Sarah,

Here is some information that could be shared with NHTSA so they can be prepared if the Administrator asks additional questions regarding the baseline projection in the final SAFE rule.

Thanks  
Bill

**Subject:** modeling question

Jonathan-

Wanted to give a heads up – I have one more modelling question on the rule, which will in no way would impact text. It's for our messaging points. And it looks like it's something only your folks would be able to answer after making some calls on my end. It relates still to the same analytical numbers we were talking about Friday, and I kept Kevin's number if you don't mind me calling him again, but know I had spoken with Don also who may know this one. Not sure if I could get his number, if it would be okay to call him? Appreciate the help in resolving this.

Dear Jonathan, I am sharing with you a draft version of our briefing materials in our joint rule making effort, which is about to bear fruit. As most of us in the OAR IO were not involved in the initial development of the rule, I invite your thoughts, insights and suggested changes to this document in order further the collaborative efforts of our two agencies. While we may not make all recommended changes, would welcome direct input to save time amidst the dislocation of the national emergency.

Regards, Karl

**Subject:** FW: Draft briefing Administrator Wheeler on the SAFE final rule

Karl, Abbie-

Attached is a draft briefing for the Administrator. Bill took the previously written one pager which you have seen, and added into it some more briefing/summary level info. So I wasn't sure how you would like to proceed with this document given that Karl you mentioned you might make some edits to the previous document. Do you want to take this version and provide some edits and then forward that to Anne and others, or should we try to pare this one back to only new info and leave it as two separate briefing docs (that may be a little trickier than the first option).

Thanks

Sarah

**Subject:** RE: Rollout Tuesday

I think we should at least have the call at 11am to go over the comms/outreach plans...who is doing what, etc.

We can regroup later to do a ROS call w/ Anne and James. Would that work? 4:30pm or so today for principals?

Sorry...just want to make sure we are coordinated on who is pitching who, at what time, what other needs there are for everyone, etc. We should be able to do this at a staff level first.

That way when we have Anne and James we are all solid.

Thank you!

**Subject:** RE: Rollout Tuesday

Any word on the final OpEd that was sent to the WH?

We will be in our own location. I think we all need to have a call...unfortunately, 11am is about the only time I have open on my schedule.

This is my understanding of media call ROS:

Sec Chao opens  
Adm Wheeler opens  
Q/A with James Owens and Anne Idsall

You should work with Abbie on stakeholder calls if you need Anne to join. Also, Travis Voyles for Congressional outreach.

Andrea Woods will work with you all on media and timing of pitching items under embargo, etc. I did make an edit to the Administrator's quote in the press release that I have to get cleared...hopefully quickly.

Thank you!!!

Hi Sean-

I hope this finds you well. I spoke with Jonathan Morrison earlier today about the finalization of the SAFE Rule. I am working with EPA/OTAQ staff on communications material. I was hoping to speak with you sometime this week to hear what NHTSA/DOT have been working on. I will be taking point for the OAR immediate office to get communications materials to the EPA Office of Public Affairs.

Do you have time tomorrow or Friday to chat?

Best,

Jonathan and Ross:

I am reaching out on behalf of Alana Hyman, in the Administrator's Office at EPA. We wanted to confirm that you both are available this next week for a briefing with Administrator Wheeler on SAFE. The call is currently on our schedule for 10:30am on Wednesday, March 25<sup>th</sup>. Please let me know if that time works for you, and Alana will send you the calendar invitation and conference line.

If I can send additional information, please do not hesitate to reach out at any time.

Best,  
Sarah

Hi Enesta,

Sen. Tom Carper (D-Del.) obtained a leaked draft of the final rule under interagency review, which indicates that fuel economy standards would be increased by 1.5% annually through model year 2026. They are basing their criticism off of that leaked draft, which was first reported by the Washington Post: <https://www.washingtonpost.com/climate-environment/2020/01/23/trump-vowed-his-mileage-standards-would-make-cars-cheaper-safer-new-documents-raise-doubts-about-that/>

Thanks,  
 Maxine

Hi Maxine,

Please explain how they can criticize something that isn't even final or public.

For the record: The rule is still under interagency review.

On Mar 27, 2020, at 11:57 AM, Maxine Joselow <[mjoselow@eenews.net](mailto:mjoselow@eenews.net)> wrote:

Hi Enesta,

Thank you for the quick response. However, if you look at the nature of my questions, you will see they are more appropriate for EPA to address than OMB, since they deal with public health and the environment, which is in EPA's mission statement. Additionally, I have not heard back from OMB about my request for comment yesterday.

Thank you,  
Maxine

**Subject:** Re: E&E News inquiry

Hi Maxine,

Please reach out to OMB as it is still under interagency review.

On Mar 27, 2020, at 11:55 AM, Maxine Joselow <[mjoselow@eenews.net](mailto:mjoselow@eenews.net)> wrote:

Hello,

I'm the transportation reporter for E&E News. I'm writing an article for Monday about how EPA and NHTSA are expected to finalize the second part of the SAFE Vehicles rule early next week, according to sources familiar with the matter. The article will include criticism from environmental and public health experts, who argue that the rollback will exacerbate the public health and economic impacts of the COVID-19 pandemic by increasing air pollution and gas prices at the pump. Does EPA's press office have a comment or response to this criticism? Please let me know. My deadline is COB on Sunday, and the story will be published on Monday morning.

Thanks,  
Maxine

Hello Andy and Sean,

Thank you for sending up and coordinating the rollout plan, the press release and the joint OpEd.

Do you all have other documents you are developing? Factsheet?

What ever else you can share would be great. I'm sending items to our Administrator today.

Thank you!

Hello Abbie!

Andy Post here with DOT's Public Affairs office. I'm replying on behalf of our office and also on behalf of Sean who is the lead in NHTSA and will also be the lead on SAFE Rollout from NHTSA's side.

We have discussed some ideas internally and with the current situation and also the fact that we expect signing on March 30, we'd propose this concept for EPA/Admin Wheeler to consider:

## Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

**Subject:** RE: Three docs.

I recommend we only send along the op-ed, release, and statements tonight to the WH. The rest we will use as needed and individually. I'll compile now and will await EPA.

Below is Sec Chao opening by the way:

**Remarks Prepared for Delivery by  
 U.S. Secretary of Transportation Elaine L. Chao  
 SAFE Rollout Call  
 Tuesday, March 31, 2020**

Good Morning and thank you for joining us. I want to thank EPA Administrator Andrew Wheeler for working with the Department of Transportation on the completion of the SAFE Vehicles Rule. And let me note Acting NHTSA Administrator James Owens and his team for their work on this very important issue.

Three years ago, President Trump pledged to autoworkers and consumers that he would reinvigorate American auto manufacturing by updating formerly costly, increasingly unachievable fuel economy and vehicle CO<sub>2</sub> emissions standards.

Today, the President and his administration are keeping that promise, releasing the Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule. We estimate that this historic update to fuel economy standards will:

1. save thousands of lives
2. prevent hundreds of thousands of injuries
3. lower the price of new vehicles for consumers & their families
4. grow our economy.

In essence, it will make new vehicles more affordable, and newer vehicles safer and cleaner for the environment. It's a win/win/win.

The SAFE Vehicles Rule sets the next generation of fuel economy standards for our Nation's new vehicles. These standards are reasonable and achievable, and reflect the fact that times and technology have changed since the previous rule in 2012.

This rule will save hundreds of billions of dollars in regulatory costs and total vehicle lifetime costs over the next decade. And our estimates show that these changes will save consumers more than \$1,000 per vehicle in the price tag alone. This means millions of new vehicles will be sold.

This rule reflects the Department's #1 priority—safety—by helping make newer, safer, cleaner vehicles more affordable. By putting more Americans in these newer vehicles, we can ultimately save about 3,300 lives. And thanks to advanced vehicle technologies, these standards will also help prevent 397,000 injuries and eliminate about 1.8 million vehicle crashes. That's wonderful news!

The SAFE Vehicles Rule reflects the realities of today's market: lower oil prices, increased U.S. oil production, growing consumer demand for larger vehicles, rising prices and an aging U.S. fleet—In fact, with the average age of vehicles now being nearly 12 years old, it is the oldest in U.S. history!

By making these newer, safer, and cleaner vehicles more affordable for American families, we will save lives, create jobs, and pave the way for a brighter future.

So thank you again. It is now my pleasure to hand it off to Administrator Wheeler who will now discuss the environmental aspects of this rule.... Administrator Wheeler:

Hello Andy,

Have you all heard back from the WH on the rollout plan? I haven't seen anything.

Could we do a quick call Monday morning just to go through some logistics? Does 11am work?

Thank you

**Subject:** Call time

Hey guys – would 5:30 work for the call with James & Anne?  
Thanks

Sean-

Attached are the OAR-IO edits to the backgrounder.

Best,  
Abbie

**Subject:** SAFE URL

Hi Sean-

EPA/OTAQ are working on EPA's webpage for the SAFE final rule. They wanted me to check and see if you all have the URL that you plan to use so we can link to the rule and your materials from our page.

Best,  
Abbie

Jonathan,

The following SAFE Preamble section(s) is/are ready for EPA review. Files will be sent in batches due to file sizes.

- P08 Fulfilling Statutory Obligations

Thanks.

Jim
